

Show me something that I've not seen before  
Show me somewhere that I've not been before  
You give me so much I don't want anymore  
And until I get my fill  
Awake on the sea, asleep on the shore  
You're making me just want to keep wanting more  
I'm understanding, and I'm standing under awe  
Just like many, but nobody  
Not like any, everybody

Everybody, look at us now  
Everybody, look at us now  
Everybody, look at us now  
Look at us now  
Yeah, look at us now  
Yeah, look at us now  
Look at us now

I love it when you say you're better than me  
Like you know you're not as clever as me  
You can't connect intellectually  
And until I get my fill  
My head is heading for the head surgery  
Everything you said, you heard it from me  
Your repetition's just repeating on me  
Just like many, but nobody  
Not like any, everybody

Everybody, look at us now  
Everybody, look at us now  
Everybody, look at us now  
Look at us now  
Yeah, look at us now  
Yeah, look at us now  
Look at us now

Am I the wrong one?  
Am I the wrong one?  
Am I the wrong one?  
Am I the wrong one?

Everybody, look at us now  
Everybody, look at us now  
Everybody, look at us now  
Everybody, look at us now  
Everybody, look at us now  
Everybody, look at us now  
Everybody, look at us now  
Everybody, look at us now
