

From the void,  
Nothingness becomes aware of itself  
Consciousness is born  
Self realization through creation  
And so the universe is born

Lost inside the human maze  
Through your mind, you create  
Only way to the other side  
Is to live and to die

Eons pass by,  
Alone with all this power  
Sure makes for a stagnant existence  
The solution?  
Divide into pieces  
The immortal ones, long to be flesh

Organized religion  
A distortion of the truth  
Make your own decision  
Ignorance will undo you

I, I am the game  
I, I am the player  
I'm the creator  
I'm the destroyer

Lost inside the human maze  
Through your mind, you create  
Only way to the other side  
Is to live and to die
