

# We're Not Alone

Echosmith

Ooh, this don't feel right  
In fact, it feels like things are escalating  
Just last night  
I heard talks of a new beginning

And this is getting out of hand  
And I'm sure you understand  
That we can't stay

Tonight we'll dream to a better cause  
Stand straight for the crooked ones  
We'll set out and see how far we'll go  
And we'll live life in a different light  
Steadfast through the darkest night  
Keep our heads up and eyes fixed on the road  
We're not alone, we're not alone  
We're not alone, we're not alone

Since we've been gone  
It's getting harder for us to remember  
Where we're from  
'Cause since we left things are moving faster

And now we're closer to the sky  
When we see the sun rise  
We'll be on our way

Tonight we'll dream to a better cause  
Stand straight for the crooked ones  
We'll set out and see how far we'll go  
And we'll live life in a different light  
Steadfast through the darkest night  
Keep our heads up and eyes fixed on the road  
We're not alone, we're not alone  
We're not alone, we're not alone

Oh, keep it up  
It's only getting better  
Oh, carry on  
And just remember to

Oh, keep your head up now  
And lift your feet off the ground

Tonight we'll dream to a better cause  
Stand straight for the crooked ones  
We'll set out and see how far we'll go  
And we'll live life in a different light  
Steadfast through the darkest night  
Keep our heads up and eyes fixed on the road  
We're not alone, we're not alone  
We're not alone, we're not alone  
We're not alone, we're not alone
