

After the End of the World

Eclipse

Heard we got it coming
Straight between the eyes
The end's getting closer
Pack up and say your goodbyes
The skies are getting darker
That's another sign
Seeing is believing
A blind man is leading the blind

There's nothing we can do about it
There's no forever

After the end of the world
We will dance with the dead
Bridges are burned
And the streets bleeding red
I'm certain that we will return

After the end of the world

Here's another prophet
Saying we are doomed
Brimstone and fire
Leading us straight to the tomb
The book of revelation
Over our heads
Guilt and frustration
A lover beside us in bed

Watcha gonna do about it
It's now or never

After the end of the world
We will dance with the dead
Bridges are burned
And the streets bleeding red
I'm certain that we will return
After the end of the world

After the end of the world
We will dance with the dead
Bridges are burned
And the streets bleeding red
I'm certain that we will return
After the end of the world
