

Ain't Dead Yet

Eclipse

Took a bullet with my name
Walked right through a burning flame
It left me with a scar
I have seen the other side
But I'm here I'm still alive
And blood pumps through my veins

Every bone has been broken
I've been on the edge
There is no pain that I haven't felt
I have faced all my demons
Know all kinds of hell
Yeah, my candle's been burned
At both ends

Ain't dead yet
Looked the devil in his eyes
This is where I'm coming from
All this shit have made me strong
I don't break easily
So hit me with your hardest shot
Bring it on yeah all you've got
Be sure to make it real

Every bone has been broken
I've been on the edge
There is no pain that I haven't felt
I have faced all my demons
Know all kinds of hell
Yeah, my candle's been burned
At both ends

Ain't dead yet
Looked the devil in his eyes
So just bring it on
Make it hard make it strong
