

Bite the Bullet

Eclipse

We're setting sails across the sea
I feel it in my bones
There's a wind of change
Blowing from the west
It's rolling in
Been fighting hard to stay alive
Nothing ever stays the same
Come and take my hand
Take a leap of faith and don't give in

Another one bite the bullet
(Bite, bite)
Yeah another one bite the bullet
(Bite, bite)
Oh another one bite the bullet

We'll find a place to make a stand
We're strangers in this land
From the bottom up to the mountaintop
Give it all you've got

Another one bite the bullet
(Bite, bite)
Yeah another one bite the bullet
(Bite, bite)
Oh another one bite the bullet

Memento vivere, morituri te salutant
Memento vivere, morituri te salutant
Memento vivere, morituri te salutant
Memento vivere, morituri te salutant

Another one bite the bullet
(Bite, bite)
Oh another one bite the bullet
(Bite, bite)
Yeah another one bite the bullet
(Bite, bite)
Another one bite the bullet
(Bite, bite)
Oh another one bite the bullet
