Eclipse

Sinner or saint
Well, it's a real thin line between insanity and sane
Heaven or hell
Well, on the devil's road there's a price you gotta pay

Rolling, rolling down the stream
Round and round, it's a crazy wheel
You know I'm rolling, rolling down the stream
I'm gonna, I'm gonna...
Break down
This is my last breakdown
We all break down
In this crazy merry-go-round
Yeah, we all break down

You're gonna bend or break
'Cause when the hammer falls
You hold on to your faith
Love or hate
You're gonna drag your feet for every prisoner you take

Rolling, rolling down the stream
Round and round, it's a crazy wheel
You know I'm rolling, rolling down the stream
This time I'm gonna break down
This is my last breakdown
Yeah, we all break down
In this crazy merry-go-round
And all the good die young
And tomorrow never comes
'Cause we all break down

Yeah, we all break down
In this crazy merry-go-round
And all the good die young
And tomorrow never comes
'Cause we all break down
This is my last breakdown
In this crazy merry-go-round
This time I'm gonna break down
