

Carved in Stone

Eclipse

If the stars refuse to shine
I would still be standing by your side
A heart can reach what's out of sight
A beacon lighting up the darkest night

So don't make a whisper, don't make a sound, no, no, no
One day our names will be carved in stone
So don't make a whisper, don't make a sound, no, no, no
One day our names will be carved in stone
One day our names will be carved in stone

Sometimes love is true and blind
A ray of light in darkness where we hide
There's days where everything seems lost
We carry on, no matter what the cost

So don't make a whisper, don't make a sound, no, no, no
One day our names will be carved in stone
So don't make a whisper, don't make a sound, no, no, no
One day our names will be carved in stone
One day our names will be carved in stone

Oh-oh-oh

So don't make a whisper, don't make a sound, no, no, no
One day our names will be carved in stone
So don't make a whisper, don't make a sound, no, no, no
One day our names will be carved in stone, oh
