

Dead Inside

Eclipse

I don't give a damn
Drowning on dry land
I have seen better days
Broken smiles will hide the cracks here on my face

It's a bloody mess
Lay my head to rest
I need to pull the plug
Time to bury all the bones without a trace
Letting go

If love can live forever
How come I feel so dead inside my heart?
If love can live forever
How come I feel so dead inside my heart?
They say heartache will mend
And the madness will end
How come I feel so dead inside my heart?

Who's the enemy?
Just a memory
A poison that I drink
Leaves me traumatized and paralyzed in bed

This insanity
Got a hold on me
Aware that I need help
This is something that goes on inside me head
Letting go

If love can live forever
How come I feel so dead inside my heart?
If love can live forever
How come I feel so dead inside my heart?
They say heartache will mend
And the madness will end
How come I feel so dead inside my heart?

Oh, no!...

If love can live forever
How come I feel so dead inside my heart?
If love can live forever
How come I feel so dead inside my heart?
They say heartache will mend
And the madness will end
How come I feel so dead inside my heart?
