

## Dying Breed

Eclipse

Always knew there was something wrong  
Always knew I gotta stay strong  
Break the rules and they crush you down  
They don't care about us

Find your ways and you'll find your heart  
Find your way right out of the dark  
You know what doesn't kill you only makes you strong  
They don't care about us

We are the burning flame that set this house on fire  
Heaven knows we are a dying breed  
Born to lose but always live to win  
Heaven knows we are a dying breed  
We are a dying breed

Look around, we are millions strong  
Look around, it's where we belong  
This is our voice, gotta scream it out loud  
They don't care about us

We are the burning flame that set this house on fire  
Heaven knows we are a dying breed  
Born to lose but always live to win  
Heaven knows we are a dying breed

This is your life, you only got one shot  
This is your life, give it all that you've got  
Burning flame that set this house on fire  
Heaven knows we are a dying breed  
A dying breed, oh yeah

We are the burning flame that set this house on fire  
Heaven knows we are a dying breed  
Born to lose but always live to win  
Heaven knows we are a dying breed

This is your life, you only got one shot  
This is your life, give it all that you've got  
Burning flame that set this house on fire  
Heaven knows we are a dying breed

Can't you see, we are the burning flame that set this house on  
fire  
Heaven knows we are a dying breed
