

## For Better or for Worse

Eclipse

I took a bullet and I lost the game  
I've been to hell and I felt the pain  
Thought I was way past the point of no return

Right through the thunder and the pouring rain  
And in the eye of the hurricane  
And then you came into my life and changed my world

'Cause now I'm yours to have and hold  
For better or for worse  
For better or for worse  
In sickness and health  
For richer for poorer  
Till death will do us part  
For better or for worse  
For better or for worse I'm yours

And for the first time I can breath again  
I'm gonna be there till the very end  
And all the shadows from the past are dead and gone

'Cause now I'm yours to have and hold  
For better or for worse  
For better or for worse  
In sickness and health  
For richer for poorer  
Till death will do us part  
For better or for worse  
For better or for worse I'm yours  
For better or for worse

'Cause now I'm yours to have and hold  
For better or for worse  
For better or for worse  
In sickness and health  
For richer for poorer  
Till death will do us part  
For better or for worse  
For better or for worse I'm yours  
For better or for worse
