

# Hearts Collide

Eclipse

Midnight mass, watch your neck  
Alright, it's alright  
Take your time, hurry up  
Alright, it's alright tonight

When two hearts  
When two hearts collide  
When two hearts  
When two hearts collide

Step by step, word for word  
Alright, it's alright  
Don't break down, carry on  
Alright, it's alright tonight

When two hearts  
When two hearts collide  
When two hearts (Sometimes they fall apart)  
When two hearts collide  
And nothing's ever gonna be the same  
We've only got ourselves to blame  
When two hearts  
When two hearts collide  
Oh yeah

When the ship is sinking way too fast

When two hearts (Sometimes they fall apart)  
When two hearts collide  
When two hearts (Sometimes they fall apart)  
When two hearts collide  
And nothing's ever gonna be the same  
We've only got ourselves to blame  
When two hearts  
When two hearts collide  
Oh oh
