High Road

Eclipse

Every temple has it's tomb
You face away again
You fade away from purity

Other lessons to be learned
It's just a way to free
Your mind was made for me

Running that maze again...

We take the high road
Come tomorrow
We take the high road
I'll lead you follow
Until the end
Until the end

All the tests you've got to beat
You bury six feet deep
You burn, you rinse, repeat

Every tempest that you'll face
You fight against the wind
And pay for every sin

Running that maze again...

We take the high road
Come tomorrow
We take the high road
I'll lead you follow
'Til the end
Until the end

Running that maze again...

We take the high road
Oh, come tomorrow
We take the high road
I'll lead you follow
Until the end
Until the end
Until the end
