

# Hometown Calling

Eclipse

You know I had no choice do or die  
Small town blues a lullaby  
I've been through bumpy roads and crazy turns  
Played with fire wound up burned  
Nothing I haven't seen or heard  
Done 360 around the world

Hometown calling, too far gone  
My hometown calling, I'm done  
I'm packing up my shit I'm going home

I ran a mile on broken glass  
I was going nowhere fast  
Now I see the world through different eyes  
Grown to miss that lullaby  
Took a mile 'til it dawned on me  
There's a place that I need to see

Hometown calling, too far gone  
My hometown calling, I'm done  
This is my hometown calling, too far gone  
My hometown calling, I'm done  
I'm packing up my shit I'm going home

It is my hometown calling, too far gone  
Hometown calling, I'm done  
This is my home  
It's where my heart belongs  
Oh, it's hometown calling, I'm done  
I'm packing up my shit I'm going home
