

Jaded

Eclipse

You're taking me home
And everyday our worlds collide
How can I get off this ride
It's still the same

The thrill is gone
We're living in a slow repeat
And every single time we meet
We're going down

Now it's a brand new day
Still I feel the same
In this restless heart it's complicated
It's a brand new day
Now I'm on my way
No escape
It's complicated
I'm jaded
I'm jaded

You're taking me home
And all the little things you say
You know it's driving me insane
We're losing game

Caught in between
Breathing life into a broken dream
We're losing all our self-esteem
Is this the end

Now it's a brand new day
Still I feel the same
In this restless heart it's complicated
It's a brand new day
Now I'm on my way
No escape
It's complicated
I'm jaded

Now it's a brand new day
Still I feel the same
In this restless heart it's complicated
It's a brand new day
Now I'm on my way
No escape
It's complicated
I'm jaded
