

# Killing Me

Eclipse

It doesn't really matter if you're wrong or right  
It doesn't matter what you do  
I tried to give it all but now I'm out for good  
'Cause lies are hurting more than truth

Every time we're falling  
We're bleeding  
Our wounds open wide  
But still I'm here and doing it again

But is it killing you like it's killing me  
(Did you bleed for the very first time)  
But is it killing you like it's killing me  
(Did you bleed for the very first time)  
As we are burning down this house we're living in  
The flames are gonna tear it down  
But is it killing you like it's killing me

We used to see the stars and we'd confess our dreams  
Was nothing that could hold us back  
Now all we got is just another empty bed  
And all the things we should have said

So why we got to fight it  
Let's wipe all the tears and say goodbye  
But still we're here and doing it again

But is it killing you like it's killing me  
(Did you bleed for the very first time)  
But is it killing you like it's killing me  
(Did you bleed for the very first time)  
As we are burning down this house we're living in  
The flames are gonna tear it down  
But is it killing you like it's killing me

Did you bleed for the very first time  
And is it killing you like it's killing me  
Like it's killing me

But is it killing you like it's killing me  
(Did you bleed for the very first time)  
But is it killing you like it's killing me  
(Did you bleed for the very first time)  
As we are burning down this house we're living in  
The flames are gonna tear it down  
But is it killing you like it's killing me

Did you bleed for the very first time  
Yes is it killing you like it's killing me
