

Live Like I'm Dying

Eclipse

I'm all way down to nothing at all
Out on the edge I was starting to fall
'Was getting darker
Deep, deep, deep in my heart
Uh...
I couldn't breathe, I'm down on the floor
I couldn't see, couldn't take it no more
And it was growing with every
Beat, beat, beat of my heart
Oh...

Now I'm living for the first time
I will never walk away
Now I'm living
Living like I'm dying everyday
Now I'm breathing for the first time
And I give up all the way
Now I'm living
Living like I'm dying everyday

Pain is my friend
Makes me know I'm not dead
Crowning the Lords
Running round in my head
I feel it screaming
Deep, deep, deep in my heart
Oh...
Can't stop, can't go
Go on pretending
I'm counting down making everything last
And might keep changing
With every
Beat, beat, beat of my heart

Now I'm living for the first time
I will never walk away
Now I'm living
Living like I'm dying everyday
Now I'm breathing for the first time
And I give up all the way
Now I'm living
Living like I'm dying everyday

Living for the first time
I will never walk away
Now I'm living
Living like I'm dying everyday
Now I'm breathing for the first time
And I give up all the way
Now I'm living
Living like I'm dying everyday
