

Ow!

If you wake up, no place to go
And no one to call your own
There's a thing in life that never lets you down
People try to live without it
I guess you could, but I'm not starting
Try it once, and then you'll look another way, oh yeah

Oh no! I said all of the wrong
Oh yeah! The faster we roam
Oh no! It's time we kick in once and for all

Love bites!
It's the feeling of relief, it's the feeling of teeth you know
Love bites!
There is no easy way out, love bites
Love bites

All you have is this one shot
Better keep it while you got it
Live is way too short to only fool around
You could be gone but now you're living
So stay home behind and willing
It's time to feel the burning flame inside your heart, oh yeah

Oh no! I said all of the wrong
Oh yeah! The faster we roam
Oh no! It's time we kick in once and for all

Love bites!
It's the feeling of relief, it's the feeling of teeth you know
Love bites!
There is no easy way out, love bites
When you've fallen on your knees and you're begging her "please", you know
Love bites!
There is no easy way out, love bites
Yeah, love bites!

Love bites!
It's the feeling of relief, it's the feeling of teeth, you know
Love bites!
There is no easy way out, love bites
When you've fallen on your knees and you're begging her "please", you know
Love bites!
There is no easy way out, love bites
No doubt about it! Mmm...
There's no way to find it!

Love bites
