

Mary Leigh

Eclipse

Cause this is just the calm before the storm
We got nothing to lose since the day we were born
You better shut your windows, close the doors
You better fear the worst 'cause it's gonna be yours

Mary Leigh
Put a bullet in me
Shot in the back for the first time
Mary Leigh
Put a bullet in me
This time you're crossing the red line
Mary Leigh, hey hey!

You always feed your greed and let it bleed
'Cause you don't give a damn who you put on their knees
A lot of shady deals and smoky truths
You get away with murder and bend every rule

Mary Leigh
Put a bullet in me
Shot in the back for the first time
Mary Leigh
Put a bullet in me
This time you're crossing the red line
Mary Leigh
...

Cause this is just the calm before the storm
We got nothing to lose since the day we were born

Hey hey!
Hey hey!

Mary Leigh
Put a bullet in me
Shot in the back for the first time
Mary Leigh
Put a bullet in me
This time you're crossing the red line
Mary Leigh, hey hey!
