Never Gonna Be Like You

Eclipse

You say that you are the miracle
The ones with the truth
And you say the writing it is on the wall
It's all up to you

But what you offer, what you sell
Will lead us straight to hell

We're never ever gonna be like you
We'll never do what you do
So it's a road you've got to walk alone
We'll never be by your side
Another lie doesn't make it true
That's why we're never gonna be like you

'Cause your words are poison in our hearts
We see right through you
And your words just hate and never love
You don't have a clue

That what you offer, what you sell
Will lead us straight to hell

We're never ever gonna be like you
We'll never do what you do
So it's a road you've got to walk alone
We'll never be by your side
Another lie doesn't make it true
That's why we're never gonna be like you

No we're never gonna be like you
We're never ever gonna be like you
No we're never gonna be like you

We're never ever gonna be like you
We'll never do what you do
So it's a road you've got to walk alone
We'll never be by your side
We're never ever gonna be like you
We'll never do what you do
It's a road you've got to walk alone
We'll never be by your side
Another lie doesn't make it true
That's why we're never gonna be like you

No we're never gonna be like you
