

# Never Look Back

Eclipse

Come on  
This is the chance that you got to take  
Oh you got to give it all  
'Cause it's never ever coming back  
Come on  
Get in the ring and let the game begin  
'Cause this life is what you got  
Play it hard, you better do it well

So, hit right between the eyes  
Like Armageddonize  
Don't ever compromise  
Step out into the light

And ride, ride, ride, like a hurricane  
Ride, ride, never ever look back  
Ride, ride, ride, like a bullet train  
Ride, ride, never ever look back  
You get no second chance  
So never look back

Wake up  
And don't believe it when they say it's true  
Oh you gotta choose the riddle  
Not the answers that they're giving to you  
Wake up  
There is no city up above the clouds  
Gotta live while you're alive  
Find your way and never follow the crowd

So, hit right between the eyes  
Like Armageddonize  
Don't ever compromise  
Step out into the light

And ride, ride, ride, like a hurricane  
Ride, ride, never ever look back  
Ride, ride, ride, like a bullet train  
Ride, ride, never ever look back  
You get no second chance  
So never look back  
Oh no, never ever look back

Oh no, don't believe all the lies...

Ride, ride, ride, like a hurricane  
Ride, ride, never ever look back  
Ride, ride, ride, like a bullet train  
Ride, ride, never ever never ever look back

Never ever never ever look back

Never ever look back

Don't ever walk these streets again
