# Night Comes Crawling

**Eclipse**

I cannot breath I cannot speak
My head is numb I'm dizzy from the heat

I lose control, it's spinning round
I gotta wake before I hit the ground

'Cause I can't move on
And I can't go back
I'm not the same
When the night comes crawling
And I can't pretend that I just don't care
And I can't go on this way
I'm not the same
When the night comes crawling

The fever burns I'm soaking wet
My mind is blank still I just can't forget

Oh is this real or fantasy
I need to break the shackles of memory

'Cause I can't move on
And I can't go back
I'm not the same
When the night comes crawling
And I can't pretend that I just don't care
And I can't go on this way
I'm not the same
When the night comes crawling
Night comes crawling

'Cause I can't move on
And I can't go back
'Cause I'm not the same
When the night comes crawling
And I can't pretend that I just don't care
And I can't go on this way
I'm not the same
When the night comes crawling
Night comes crawling
Night comes crawling
I know I'm not the same
