

# No Way Back

Eclipse

I'm knee deep in trouble  
I'm deep in the pain  
I've been down in the gutter  
Someone's gotta pay

Because my darker side  
Cannot be denied  
Feed the flame

And there's no way back  
There's no way out of here  
Yeah, the truth is hard to hear  
It'll kill your lies  
There's no way back from here

So, get ready to rumble  
Get ready to play  
'Cause you know I've got your number  
You can't run a way

Because my darker side  
Cannot be denied  
Feed the flame

And there's no way back  
There's no way out of here  
Yeah, the truth is hard to hear  
It'll kill your lies  
'Cause there's no way back  
There's no way out of here  
Oh, the truth is hard to hear  
Let's roll the dice  
There's no way back from here

'Cause there's no way back  
There's no way out of here  
Yeah, the truth is hard to hear  
It'll kill your lies

Oh, there's no way back  
There's no way out of here  
Oh, the truth is hard to hear  
Let's roll the dice  
There's no way back from here
