

Poison Inside My Heart

Eclipse

It's rolling in
Like wave on wave a painful wind
Like a needle in my vein
It's rolling in

I'm burning up
Like fever and I've had enough
'Cause I've been dancing with the flame
I'm burning up

You are like poison
Poison inside my heart
(You are like poison inside my heart)
You are like poison
Poison inside my heart
(You are like poison inside my heart)
I can feel it breaking into pieces
Picking up the parts
I try to run away
But I won't get far
You're poison
Poison inside my heart
(You are like poison inside my heart)
Poison inside my heart
Oh yeah

I hide away
'Cause winter's coming fast these days
I am trying to survive
So I hide away

You are like poison
Poison inside my heart
(You are like poison inside my heart)
You are like poison
Poison inside my heart
(You are like poison inside my heart)
I can feel it breaking into pieces
Picking up the parts
I try to run away
But I won't get far
You're poison
Poison inside my heart
(You are like poison inside my heart)
Poison inside my heart
Yeah yeah, oh

You are like poison inside my heart
Oh yeah

You are like poison
Poison inside my heart
(You are like poison inside my heart)
You are like poison
Poison inside my heart
(You are like poison inside my heart)
You are like poison

Poison inside my heart
(You are like poison inside my heart)
I can feel it breaking into pieces
Picking up the parts
I try to run away
But I won't get far
You're poison
Poison inside my heart
(You are like poison inside my heart)
Poison inside my heart
Mmm
