

## Roses on Your Grave

Eclipse

I don't need nobody telling me  
That I'm not okay  
I don't need nobody telling me  
I'm a fool for you  
I don't need nobody telling me  
How to live my life  
'Cause I ain't the only one  
That made love to you  
Oh, the things we do for love

I put roses down on your grave  
Only the good, the good die young  
I put roses down on your grave  
Only the good die, the good die young  
Only the good, the good die young

Only the good die young

You don't need nobody telling you  
That you crossed the line  
You don't need nobody telling you  
That you broke my heart  
You don't need nobody telling you  
That I nearly died  
I bury the pain, now I'm saying goodbye  
Oh, the things we do for love

I put roses down on your grave  
Only the good, the good die young  
I put roses down on your grave  
Only the good die, the good die young  
Only the good, the good die young

I put roses down on your grave  
Only the good, the good die young  
I put roses down on your grave  
Only the good, the good die young  
Die young  
Only the good die young  
Only the good die young

Only the good die young
