

# Run for Cover

Eclipse

There's blood in the air  
The wolves crying out so beware  
From the north the mist is rolling in  
It's a battle we cannot win

The banner is down  
How long can we stand our ground  
Yeah we are running out of time  
Our lives are on a thin, thin line

The creatures of night  
Through fire and ice  
They're screaming out

You better run  
Run for cover  
Run, run for your life  
You better run  
Run for cover  
Run, run for your life  
You better run  
Run for your life

Some wounds never heal  
Don't have to be cut by steel  
The moon is like a torch tonight  
Our hunger never satisfied

The creatures of night  
Through fire and ice  
They're screaming loud

You better run  
Run for cover  
Run, run for your lives  
You better run  
Run for cover  
Run, run for your life  
You better run  
Run for your life

Oh, you better run  
Run for your lives

Oh yeah, you better run  
Run for cover  
Run, run for your life  
You better run  
Run for cover  
Run, run for your life  
You better run

You better run

Run for your lives, oh yeah  
There's blood in the air  
The banner is down
