

## Sos

Eclipse

Can I touch  
Can you feel what's inside of me  
Can you see all the things I see  
I'm on the edge

No return Standing here  
I've got no defense  
Standing here there's a second chance  
I'm on the edge

So, can you hear my SOS  
Baby can you hear my call  
I begging you for more  
Scream your name, crying please  
Lying in my heart till open wound  
Call SOS

Waking up to the new fun reality  
Where I lost what I used to be  
I can't breathing  
Falling down, hit the ground got a new deploy  
All is change what I used to know  
I can't breathing

So, can you hear my SOS  
Can you hear my, hear my call  
I begging you for more  
Scream your name  
Lying in my heart till open wound  
Call SOS

So, can you hear my SOS  
Can you hear my, hear my call  
I begging you for more  
Scream your name  
Lying in my heart till open wound  
Call SOS
