We crashed and burned
We never gave it up

You're still my hero
You're still my hero

And when life got wild
You always took our side

What was still is and I'll never give it up

And when I'm lost and found
Through ups and downs
The good times mixed with the bad
Because you are still my hero

Times when I gave up you pulled me back again
If I broke a bone you took me to a hospital bed
On the road I carry on

You're still my hero
You're still my hero
And when I'm lost and found
Through ups and downs
The good times mixed with the bad
I swear you are
Oh, you are

Still my...
