

# Take Back the Fear

Eclipse

Can not breathe, can not speak  
Leave the weak alone to die  
It's just the money that counts

Too afraid to tell the truth  
Long way down too much to lose  
How can we live this lie

Falling deeper  
Falling out of control

Take back the night  
Take back the fear  
Take back what's ours  
These streets are not theirs  
Take back the night  
And take back our dreams  
This is our fight  
Together we scream  
We never back down  
We take back the fear

Had it all, lost it all  
Time that we break down the walls  
That's growing higher each day

Throw the ball, the game begin  
Let them pay for all their sins  
And show no mercy this time
