

Things We Love

Eclipse

For home and heart we live and die
A northern star up in the sky
No, we'll never let go of the things we love

The memories of greater days
Will guide us to a better place
No, we'll never let go of the things we love
No, we'll never let go of things we love
No way

You wild and free, the mountains high
A fire burning deep inside
No, we'll never let go of the things we love
No, we'll never let go of things we love
No way
No, no, no

Holding on with what we've got

Where the skies are blue, the meadows green
Oh, strong and faithful like a dream
No, we'll never let go of things we love
No way

Holding on with everything we've got
No, we'll never let go of things we love
Oh no
