

# To Say Goodbye

Eclipse

You try to walk away from me  
I never tried to make you stay  
And if you've ever got your doubts and will return  
Then maybe I'm on my way

I'm so sick and tired of all the wars  
When our words they fail  
There's nothing left to win we're down  
To our final nail  
Cause this time we fall apart

For every time that I had enough  
For every piece that keeps building up  
Every laugh, every cry  
Every cheat, every lie  
Will you be there to say goodbye  
To say goodbye

When everything is said and done  
There's no more battles to be won  
This is the place, this is the time  
Right here, right now  
When everything comes crashing down

When the shouting turned to silence we  
We had given up  
Yeah, this time we fall apart

For every time that I had enough  
For every piece that keeps building up  
Every laugh, every cry  
Every cheat, every lie  
Will you be there to say goodbye  
Oh, will you be there

For every time that I had enough  
For every piece that keeps building up  
Every laugh, every cry  
Every cheat, every lie  
Will you be there to say goodbye  
To say goodbye  
Oh, to say goodbye
