

## Under The Gun

Eclipse

You either get it or you don't  
Tried and tried am I coming through  
I can say there's more to this than make believe  
Life is breathing down your neck  
A minute gone is a minute lost  
Crash and burn if you sleep behind the wheel

Under the gun, this is just a one shot deal  
Can't run, can't hide  
Can I be more clear, under the gun  
We're all under the gun

The more you give, the more you get  
Give it all, you'll reap it all  
Imagine it and you can walk on water now  
The devil feeds on all your fears  
Let 'em in and the feast is you  
Close that door, you're running outta time

Under the gun, this is just a one shot deal  
Can't run, can't hide  
Can I be more clear, under the gun  
Under the gun, this is just a one shot deal  
Can't run, can't hide  
Can I be more clear, under the gun  
This is just a one shot deal  
Can't run, can't hide  
Can I be more clear, under the gun  
We're all under the gun
