

There are pains we gotta follow  
There are pains we can't outrun  
When we're looking down the barrel of a gun  
Be the hunter or the hunted  
Be the predator or prey  
Make some noise and let the world hear what we say

'Cause we are one!  
'Cause we are one!

Can be saints, can be sinners  
Can be losers, can be winners  
We are one! Yeah, we are one!

We stand united  
We fight until the end  
We never stop, never break, never bend  
We stand united  
Together rise and fall  
'Cause it's all for one, one for all  
Yeah, it's all for one, one for all!

It is not about surviving  
Either living or your dying  
Stand your ground and never ever be afraid  
We can choose to make a difference  
We can choose to walk away  
There's a choice we make between love and hate

'Cause we are one!  
'Cause we are one!

So break your chains, stake your ground  
Make some noise and gather 'round  
'Cause we are one  
Yeah, we are one

We stand united  
We fight until the end  
We never stop, never break, never bend  
We stand united  
Together rise and fall  
'Cause it's all for one, one for all  
Yeah, it's all for one, one for all!
