

# Until the War Is Over

Eclipse

Here in the ruins we're lost  
We live in what still remains  
This fight has gone on too long  
There's no one left to blame  
Oh, no

Cause I've got blood on my hands  
And a shattered heart  
Maybe guilty, maybe not  
And the blood on my hands can't be washed off  
And the pain never stops

I'm gonna wait, wait for you 'til the war is over  
We better stop, we better stop our bleeding hearts  
I'm gonna wait, wait for you 'til the war is over  
We better stop, we better stop our bleeding hearts  
Our bleeding hearts

Some lines should never be crossed  
The highlight of our mistake  
As fools we just carried on  
Not knowing we would break  
Oh, no

We both got blood on our hands  
And broken hearts  
Maybe guilty, maybe not  
And the blood on our hands can't be washed off

Will this nightmare ever stop

I'm gonna wait, wait for you 'til the war is over  
We better stop, we better stop our bleeding hearts  
I'm gonna wait, wait for you 'til the war is over  
We better stop, we better stop our bleeding hearts  
Our bleeding hearts

I'm gonna wait, wait for you 'til the war is over  
We better stop, we better stop our bleeding hearts  
I'm gonna wait, wait for you 'til the war is over  
We better stop, we better stop our bleeding hearts  
Our bleeding hearts

Our bleeding hearts
