

Vertigo

Eclipse

Heartache and trouble are coming my way
In the eye of the storm there's hell to pay
Don't know who wants to live forever

Taking my chance for another day
Praying for a miracle I'm here to stay
Don't know who wants to live forever

Saints and sinners gather round
Now the king has lost his crown
And the world is spinning
Round and round and round
Like Vertigo
Now the walls are coming down
Better run for higher ground
Cause the world is spinning
Round and round and round
Like Vertigo

The joker in the deck tries to play his card
The future oh our land is written in the stars
Don't know who wants to live forever

Saints and sinners gather round
Now the king has lost his crown
And the world is spinning
Round and round and round
Like Vertigo
Now the walls are coming down
Better run for higher ground
Cause the world is spinning
Round and round and round
Like Vertigo

Saints and sinners gather round
Now the king has lost his crown
And the world is spinning
Round and round and round
Like Vertigo
Now the walls are coming down
Better run for higher ground
Cause the world is spinning
Round and round and round
Like Vertigo
