

Wide Open

Eclipse

A new day and a brand new sky
We had our ways and we were born to fly
No matter what we do was we would never back down
It was a new world and a brand new start
I lift it all and opened up my heart
No matter what we said it was, we would never back down
No-oh!

I walked through hell and all the burning flames
Wide open
Wide open
I can't return, I am forever yours
Wide open
Wide open
I stayed wide open

We thought a word and we thought of sound
You were the light I never thought I'd find
No matter what they threw at us we would never back down
No-oh!

I walked through hell and all the burning flames
Wide open
Wide open
I can't return, I am forever yours
Wide open
Wide open
Whoa, oh!
I walked through hell and all the burning flames
Wide open
Wide open
I can't return, I am forever yours
Wide open
Wide open
(Whoa, oh, oh, oh)
I stayed wide open (Whoa, oh, oh, oh)
Wide open
(Whoa, oh, oh, oh)
