

Young Guns

Eclipse

The black sheep of the family
I ain't got nothing to lose
There must be a lot of guys like me
With everything to prove

We've been told that we're not enough
We are expandable youth
But that shit only made us tough
I tell you that's the truth

'Cause we got it and you want it
But we're aiming so much higher
We got it, so this time we live to win

Young guns, taking control of the streets
Young guns, tonight we turn up the heat

I've been called a calamity
Yeah, I've been called a fool
You might see me as the enemy
'Cause I am breaking the rules

'Cause I got it and you want it
But I'm aiming so much higher
We are born to lose but we live to win

Young guns, taking control of the streets
Young guns, tonight we turn up the heat

The black sheet of the family
I got nothing to lose
I got a fire raging in my heart, this is what I do

Young guns, taking control of the streets
Young guns, tonight we turn up the heat
Riot in the city, we're heading downtown
Gonna set the whole damn world on fire
Young guns
