

Nights

Ed Bruce

Nights are the loneliest time of day
That's when your memory comes around and gets me down

Nights, there's a star for every tear
That's fallen from my eye oh how I cried

Oh those nights alone thinking back to you and I
Yes those nights I know I never should have said goodbye
Nights are the loneliest time of day
That's when your memory comes around and gets me down

Oh those nights alone thinking about to you and I
It's those nights I know I never should have said goodbye
I said nights, there's a star for every tear
That's fallen from my eye oh how I cried

Nights are the loneliest part of day
That's when your memory comes around and gets me down
