

# You Turn Me On Like A Radio

Ed Bruce

You turn me on like a radio then baby then you play me  
soft and low  
You know how to make the music flow deep in my soul  
Baby you know just how to keep the signal strong you got  
me tuned in all night long  
Whenever you want oh you turn me on like a radio

Baby when the room in dark  
And you touch me and I feel a spark  
I hear that old song start to play  
And softly it fills the room  
And each time that I hear that tune  
I know it's gonna take me away

You turn me on like a radio then baby then you play me  
soft and low  
You know how to make the music flow deep in my soul  
Baby you know just how to keep the signal strong you got  
me tuned in all night long  
Whenever you want oh you turn me on like a radio

You turn me on like a radio then baby then you play me  
soft and low  
You know how to make the music flow down deep in my soul  
Baby you know just how to keep the signal strong you got  
me tuned in all night long  
Whenever you want oh you turn me on like a radio
