

# I Could Never

Ed Prosek

This is how it's always been  
Nothing ever changes 'cause that's who we are  
And I broke a thousand promises  
But I never hit the bottom of your cold cold heart

You were in all of my dreams  
So how come that every word we say feels so damn cheap  
You used to talk in your sleep  
You kept sayin' you kept sayin'

I could never fall in love again you're the only one I needed  
I'll give you everything all you have to do is feel it  
I could never fall in love again you're the only one I needed  
I'll give you everything right until my heart stops beating

So this is how it feels  
To see your face but only kiss your shadow  
We try to keep our hearts conceal  
From all the things that could have been  
We'll never know

You were in all of my dreams  
So how come every moment feels so bittersweet  
You used to talk in your sleep  
You kept sayin' you kept sayin'

I could never fall in love again you're the only one I needed  
I'll give you everything all you have to do is feel it  
I could never fall in love again you're the only one I needed  
I'll give you everything right until my heart stops beating

You used to talk in your sleep  
You used to talk in your sleep

I could never fall in love again you're the only one I needed  
I'll give you everything all you have to do is feel it  
I could never fall in love again you're the only one I needed  
I'll give you everything right until my heart stops beating
