Ed Sheeran

I had a bad week  
Spent the evening pretending it wasn't that deep  
You could see in my eyes that it was taking over  
I guess I was just blind and caught up in the moment

You know you take all of my stress right down  
Help me get it off my chest and out  
Into the ether with the rest of this mess that just keeps us depressed  
We forget that we're here right now

'Cause we're living life at a different pace, stuck in a constant race  
Keep the pressure on, you're bound to break  
Something's got to change  
We should just be cancelling all our plans, and not give a damn  
If we're missing out on what the people think is right

Seeing through a picture behind the screen and forget to be  
Lose the conversation for the message that you'll never read  
I think maybe you and me  
Oh, we should head out to the place where the music plays

And then we'll go all night

Two stepping with the woman I love  
All my troubles turn to nothing when I'm in your eyes  
Electrified, we'll keep turning up and go all night  
Oh, we had dips and falls in our time  
But we know what it feels to be low then up, alone then loved  
And all we need is us to go all  
Night, night  
Two stepping with the woman I love  
Night, yeah  
All we need is us

What do you reckon, is it just me?  
Words are weapons and occasionally they cut deep  
Crisis of confidence, it tends to come when I feel the dark  
And I open my heart  
If you don't see it, you should trust me

I feel like I've got nothing left right now  
Except this beauty in her dress right now  
She got me feeling like the best, and the rest are just less  
Than she needs, so we press play and step to the beat

'Cause we're living life at a different pace, stuck in a constant race  
Keep the pressure on, you're bound to break  
Something's got to change  
We should just be cancelling all our plans, and not give a damn  
Head out to the place where it plays

And we'll go all night

Two stepping with the woman I love  
All my troubles turn to nothing when I'm in your eyes  
Electrified, we'll keep turning up and go all night  
Oh, we had dips and falls in our time

But we know what it feels to be low then up, alone then loved  
And all we need is us to go all  
Night, night

Two stepping with the woman I love  
Night, yeah  
All we need is us to go all night  
Night, night  
Two stepping with the woman I love  
Night, yeah  
All we need is us to go all night
