

# Camera

Ed Sheeran

You should see the way the stars  
Illuminate your stunning silhouette  
You're glowing in the dark  
I had to count to ten and take a breath  
You think that you don't have  
Beauty in abundance but you do  
That's the truth

You're frozen in motion  
A perfect picture in a frame  
Some visions don't ever fade

I don't need a camera to capture this moment  
I'll remember how you look tonight  
For all my life  
When everything is black and white, your colour's exploding  
There's something in the way you shine  
I don't need a camera when you're in my eyes

You should see the way this night  
Is unfolding beautifully for us  
It's getting late, but I don't mind  
We'll take this in until the sun comes up  
And I think that what we have  
Is like every dream I had came true  
Lying here with you

A photo could not show  
The way my heart is beating, babe  
Some visions don't ever fade

I don't need a camera to capture this moment  
I'll remember how you look tonight  
For all my life  
When everything is black and white, your colour's exploding  
There's something in the way you shine  
No, I don't need a camera when you're in my eyes

And in a flash, it's gone  
But I'll keep holding on  
To every little detail in the fabric of the night  
Never letting go of it inside

I don't need a camera to capture this moment  
I'll remember how you look tonight  
For all my life  
When everything is black and white, your colour's exploding  
There's something in the way you shine  
I don't need a camera  
When you're in my eyes
