

# Dusty

Ed Sheeran

I heard you calling, now my eyes are open  
The day is breaking into powder blue  
Sunlight is framing our every moment  
What a way to start off the day with you

Flick a finger  
Start a discussion to pick a singer  
This one you'll love it  
I had to bring her  
Just let the speakers take you away

Drop the needle on Dusty  
Frost on the leaves like a lake  
The moment came out of nothing  
A beautiful smile on your face  
Yesterday was a long night  
But I got a feeling that the future is so bright  
All of the pressure washed away in the low tide  
But we got to wait 'til our clothes are bone dry  
So I'll drop the needle on Dusty

We were lost within a stormy ocean  
Nobody knew what we were going through  
We talk about it as we dip our toes in  
Take a breath and brace for the waves with you

Flick a finger  
Wait for the magic to do its thing, yeah  
There's more than sadness we got within us  
Let's put some colour into the grey

And drop the needle on Dusty  
Frost on the leaves like a lake  
The moment came out of nothing  
A beautiful smile on your face  
Yesterday was a long night  
But I got a feeling that the future is so bright  
All of the pressure washed away in the low tide  
We got to wait 'til our clothes are bone dry  
So I'll drop the needle on Dusty

Nothing but static on the stereo before today  
Both on the edge to throw it all away  
I used to think that every situation stayed the same  
But I can see it start to change, okay

Drop the needle on Dusty  
Frost on the leaves like a lake  
The moment came out of nothing  
A beautiful smile on your face  
Yesterday was a long night  
I got a feeling that the future is so bright  
All of the pressure washed away in the low tide  
We got to wait 'til our clothes are bone dry  
So I'll drop the needle on Dusty  
Drop the needle on Dusty  
Drop the needle on Dusty
