

# Forever

Ed Sheeran

Ohh darling  
Ohh darling  
Ohh darling

It's 4 a.m. beneath the stars, under the night  
And you're here, and you're here  
Candles lit, the room is dark, the moon is light  
We can lay here, we can love here

Forever is all I ever want  
So be careful when you're giving it to someone

Ohh darling  
Ohh darling

I brought some food, a change of clothes, a little wine  
And a blanket, we used them all  
I dreamt a day away on a planet full of life  
To stay there, fell in love there

Perfect comes near, perfect just for one  
Forever is all I ever want  
So be careful when you're giving it to someone

Ohh darling, ohh love  
Ohh darling, ohh love

Lying down, her cheek is resting on my shoulder  
I play with her hair, I adore her  
This is the single sweetest love I've ever known, yea  
We could stay here, run away, dear

Love knows no fear, but it doubted some  
Forever is all I ever want  
So be careful when you're giving it to someone

Ohh darling, ohh love  
Ohh darling, ohh love
