

# Goodbye to You

Ed Sheeran

Hey, can you hear me  
I just wanted to let you know hmm

I hope you can hear what I write to you  
How could I say goodbye to you  
When I'm a life that came out of the inside of a life  
That was inside of you  
I gotta respect the way you provided food, for the whole fam you  
Came over a moon rush supporting a mar jays old man,  
Cold double 8, 8 kids bare wheels plus racists full of  
Hatred in your own plant, 3 jobs in a day, rest in  
Life in you working but you were never stressed free  
Just locked in a cage slaving, they said they were  
Gold in the pavements but you came and saw the road to  
Amazement, broke your heart but still you were prone  
To last and your sorrow was over fast, I hope your  
Listening right, I still think of you every Sunday no  
One can top your chicken and rice, even through the  
Darkness times you held us all up cause your vision was  
Bright I knew your strength was your wisdom inside,  
You never let anyone see your heartache you just got  
On with it, anyone tells me that they knew you said  
You were beautiful and your words you would stand  
Strong with it. Cause they were like warmth on a winter  
Night but I was just too young to go on with it and  
There something's I could try to do but it's an  
Impossible task for me to even try and say goodbye to  
You, I couldn't do that, I owe my life to you.  
And of the pieces of my soul because I need a sign I  
Hope this pain will heal in time you know I never want to be alone ohh  
I can see the stars as a cold wind greets the air and  
Will you think of me up there, can I say goodbye to  
You? and paint the stains of the teardrops down my face  
Or feel the chill of your warm embrace.  
Can I say goodbye to you ohh  
I think you phoney I was younger with the knowledge of  
Things that I know now I would be by your side when you  
Needed me instead of asking you 'Nan can I go out'  
Standing in a road with the gangs that I know now,  
Everyone's missing you loads, Jessica's grown up,  
Warren Lauren and Alex are fine and imp living with  
Hope, it's been a while since I've seen c and the  
Mouths I miss seeing and being a family and us agreeing  
With smiles how it used to be as a child but as time  
Goes by the bridge seems longer family problems have

Never been funny, in my heart the only one that dissed  
Me was Sonia she took all our inheritance money, left  
The rest of us to pick up the pieces. I never forgive  
The way she betrayed us, there ent a big enough reason  
Before I sell out my fam I'll be giving up breathing,  
But I guess that everyone's different or should I say  
No one's perfect she had happiness in front of her but  
Chose to ride the wave that no ones surfing. Since you  
Gone the foundations crumbled so building it back up is  
My next step I got all the bricks and the cement but  
It's hard when it's done I don't know what to expect,

So give me the strength that I need to perform this  
Task make it right I must do and I ask cause I trust  
You it goes way beyond a song when I say I love you.  
And of the pieces of my soul because I need a sign I  
Hope this pain will heal in time you know I never wanna be aloneee  
I can see the stars as a cold the wind greets the air  
And will you think of me up there can I say goodbye to  
You? and paint the stains of the teardrops down my face  
Or feel the chill of your warm embrace. Can I say goodbye to you ohh  
It's just for now so I should hush I'll never get  
Enough I'll see you when I see you but I miss you ohh  
How I miss you, It's just for now so I should hush  
I'll never get enough I'll see you when I see you but I  
Miss you ohh how I miss you.

There ent enough words to describe how sorry I am for  
The pain that I caused sorry for when I stuck up my  
Own blood we were young he said I was rape and he broad  
And for the day police came to the door, I'm sorry for  
Being such a bad youth stealing from your purse and  
Making you mourn, I never been able to say this  
Before cause I've was so inconsiderate you love me  
Unconditionally and I took advantage of it like a idiot  
Not seeing the pure soul that I was living with I  
Really hope that you can forgive me, you going away  
Was a punishment but I won't let go I'm holding you  
With me but I still fight the emotions within me  
You see the stars as the cold wind greets the air and  
Will you think of me up there can I say goodbye to you  
And paint the stains of the teardrops down your face  
Feel the chill of your warm embrace can I say goodbye to you  
I can see the stars as a cold wind greets the air and  
Will you think of me up there can I say goodbye to you  
And paint the stains of the teardrops down my face or  
Feel the chill of your warm embrace. Can I say goodbye to you ohh
