

# Grow Back

Ed Sheeran

Fell out of love with her  
Just to trip straight back in  
Times like this don't come round here  
And chances are slim

But eventually  
You'll be mine

Love stole my sympathy  
When she belonged to him  
But now I will feel the soft touch of her lips again  
But chances are slim

But eventually  
You'll be mine  
I won't miss a thing  
If you're mine

I don't care if you're lost  
Cause in our hearts we both know that  
We both know that

All I see, is you  
And I miss this  
And we can't see this through  
We can't fix this

Love  
It won't grow back  
She said it's time for a quick cigarette by the bike shed  
She asked me if I'd regret it all and I said  
I replied no love this about as far as it goes  
See me going by the thought of you and it shows  
She said you weren't even listening  
I might be too much right now man it's sickening  
Can't believe I'm running from her  
I'm stranded, her beauty is too much to bear  
And oh I think I want her  
And oh I swear she's never been deep in before  
And oh I think I need her  
I can't tell her I want her it's not right in summer  
I think that I need her

I won't miss one thing  
If you're mine  
I don't care if you're lost  
Cause in our hearts we both know that  
We both know that

All I see is you  
And I miss this  
And we can't see this through  
We can't fix this  
All I see is you  
And I miss this  
And we can't see this through  
We can't fix this

Love, it won't grow back  
Your love hit me like a punch in the nose  
Baby your love deals the hardest blows
