

# Misery

Ed Sheeran

Well, I've walked this street  
Well, I've walked this street before  
And everyone's locked up their door  
'Cos they heard me coming  
And I've been running  
From what  
I don't know if she's there  
Or if she's cares  
It's taken you a long time to see  
You've got a goldfish memory  
This song's for you, not for me  
In misery  
You said we went too fast  
And you said we wouldn't last  
Now I've put the past behind me  
And I'm running  
From what  
I don't know if she's there  
Or if she cares  
It's taken you a long time to see  
You've got a goldfish memory  
This song's for you, not for me  
In misery  
It's taken you a long time to see  
In misery  
And everyone's locked up their door  
'Cos they heard me coming  
And I've been running  
From what  
I don't know if she's there  
Or if she's cares  
It's taken you a long time to see  
You've got a goldfish memory  
This song's for you, not for me  
In misery  
You said we went too fast  
And you said we wouldn't last  
Now I've put the past behind me  
And I'm running  
From what  
I don't know if she's there  
Or if she cares  
It's taken you a long time to see  
You've got a goldfish memory  
This song's for you, not for me  
In misery  
It's taken you a long time to see  
In misery
