

# No Luck

Ed Sheeran

I'm screaming out upon my face  
Followed footsteps catch my pace  
Broken windows fall in place  
Now shattered lovers find their place

We'd flirt  
And you'd treat me like dirt  
All the pain and the hurt  
Just to make matters worse

And I see you all over him  
Irresistible sin  
When can we be the same again?  
What can I do to be making you see?  
To come out clean?  
You're better off with me

We're stuck  
Taking time and wasting mine  
No luck  
Running around and crashing down  
In you I trust nevermore  
Leaving you in sand and glass

All I ever felt for you  
Went up in a cloud of smoke  
How I could I be such a fool  
To ever think that we were close?

And I see you all over him  
Irresistible sin  
When can we be the same again?  
What can I do to be making you see?  
To come out clean?  
You're better off with me

We're stuck  
Taking time and wasting mine  
No luck  
Running around and crashing down  
In you I trust nevermore  
Leaving you in sand and glass
