

Pause

Ed Sheeran

You know I got to get away
To find some peace and sanity
I've been playing hide-and-seek too long
Shaking, making, everybody waking
Setting the hi-fi bleed
Keeping me back
While you're spinning my track
That'll knock you off your feet

Monkey see what monkey do
But I'm a monkey telling you
I just think that we should take a break
Tickity-tock the clock
With the hip-hop
And Alonestar backing me up
We won't stop
I gotta be searching for my peace of mind
Now let the track rewind

And play, let the music play
It came, so let the music say what it feels
Shame, shame it took too long
To see that you were wrong
Now turn the song back on

This is Alonestar coming at you
With a new style
Kicking dust
Ready to bust
It's Urban Angel
Artistic, flipping the script
Who d'you really want to get it with?
Ed and Alonestar
We're like live wires sparking
Ready to blow
We've already sown our seeds
We're just waiting to grow - blow
We're gonna lift you like a shock to your body
Metaphorical speech when we come and see
You ducking for cover
Sheeran Lock coming ready to rock
With Urban Angel and Alonestar
And Ed - keep it locked
Let the beat pump
Drop the bass but don't stop
We're kicking the sound
Let the bass bins pound
We're gonna roll
Can you feel me now with my body?
Get down to the sound
It's Ed Sheeran in the place
And Alonestar rising up
We gotta rise up
I said rise up

And play, let the music play
It came, so let the music say what it feels

Shame, shame it took so long
To see that you were wrong
Now turn the song back on
