

# When Will I Be Alright

Ed Sheeran

Oh, I've been up all night  
Thinking 'bout dying  
I've just been wasting time  
When will I be alright?

God is not on my side  
But God knows I'm trying  
I need to redefine  
When will I be alright?

Listen to my heart beating  
Why is there this empty feeling?  
Losing hope and all reason  
When will I be alright?

I have lived half of life  
Constantly fighting  
Cheeks bruised and knuckles white  
When will I be alright?

Hold my breath to stop breathing  
Love, I used to know the meaning  
I'd wake up if I was dreaming  
But when will I be alright?

I saw, now I am blind  
To all the seasons  
I see a fading light  
When will I be alright?

Listen to my heart beating  
Why is there this empty feeling?  
Losing hope and all reason  
When will I be alright?

I tried my best to stop her leaving  
I wonder about the arms she's in  
This is it, the end is nearing  
When will I be alright?  
Ooh
